

ANNE BELIYA ANZIYA

Full-Stack Developer | Node.js & TypeScript Specialist

Beliya.anziya2022@gmail.com | linkedin.com/in/anne-a-226b76128 | github.com/Beliya470 | Remote / Kenya

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building and deploying production web applications using Node.js, TypeScript, React, and Next.js. Skilled at architecting self-hosted backend services, designing REST APIs, and integrating with external platforms and databases. Comfortable working with AI development tools (Claude Code, Cursor) to accelerate delivery without compromising quality. Track record of shipping reliable software across the full development lifecycle in remote, cross-functional teams.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), Node.js, Python, PHP
Frontend	React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS
Backend & APIs	Express.js, REST APIs, GraphQL, Laravel, Flask, Django
Databases	PostgreSQL, MySQL, Supabase, Firebase, MongoDB, Redis
DevOps & Cloud	Docker, GitHub Actions, CI/CD, AWS, Vercel, Railway, Heroku
AI Tools	Claude Code, Cursor, AI-assisted development workflows
Testing	Playwright, Cypress, Postman, Jest, CI-integrated testing
Other	Git, Jira, Agile/Scrum, CRM integrations, Zapier

PROFESSIONAL EXPERIENCE

Software Engineer

Redwood Software | Remote

May 2024 – Present

- Built scalable automated test frameworks with Playwright and TypeScript for enterprise cloud applications, integrated into CI/CD pipelines with Jenkins and Docker.
- Developed and maintained Node.js backend services, validating REST and GraphQL APIs for data integrity, error handling, and cross-service integration.
- Collaborated with frontend and backend engineers on system design, improving testability and deployment confidence across multiple release cycles.
- Used AI tools (Claude Code) to accelerate test generation, refactoring, and code review workflows, reducing turnaround time on regression suites.
- Set up performance monitoring dashboards with Grafana, identifying and resolving system bottlenecks before production impact.
- Active participant in Agile ceremonies, contributing to sprint planning, acceptance criteria, and cross-team coordination.

Full-Stack Web Developer

Support & Growth Inc. | Remote

2022 – 2024

- Designed and shipped production web applications using React.js, Next.js, and Node.js with PostgreSQL and external API integrations.
- Architected self-hosted application deployments, managing hosting, environment configuration, and database setup end-to-end.

- Built RESTful APIs and backend services to power dynamic, data-driven features with secure authentication and input validation.
- Automated business workflows using Zapier and CRM platform integrations, improving operational efficiency by roughly 30%.
- Implemented responsive, SEO-optimized interfaces with a focus on performance, accessibility, and cross-browser compatibility.

Junior Software Developer (Internship)

One Terrace Inc. | Tokyo, Japan

Oct 2023 – Nov 2023

- Contributed to frontend and backend development of a corporate recruitment platform in an international engineering team.
- Participated in code reviews, pair programming, and Agile workflows following strict coding standards.
- Gained experience working across time zones with a globally distributed team using modern development practices.

KEY PROJECTS

Production Web Applications — swiftacare.com | blacktherapy.ca | supportandgrowth.com

- Full-stack applications built with React, Node.js, and TypeScript featuring secure auth, database management, and RESTful APIs.
- Self-hosted deployments with zero critical launch defects, managing infrastructure, environment config, and CI/CD pipelines.
- Integrated third-party services and payment systems, handling webhook callbacks and asynchronous event processing.

Task Management API — Laravel + MySQL + Vue.js

- REST API with 5 endpoints, business rule enforcement, and a Vue 3 frontend. Deployed on Railway with MySQL.
- 15 passing feature tests, database migrations/seeder, and full CI-ready test suite.

EDUCATION

BSc Software Development

KCA University

Graduated Dec 2025

Certificate in Software Engineering

Moringa School — Full-Stack Development, DevOps, Agile Methodologies

Completed 2023
